1st Annual ISLFD East Coast Chapter Meeting

September 20, 2016 in the Greater Washington, D.C. Area

Time	ISLFD East Coast Chapter Annual Meeting Agenda
7:30 - 8:15	Registration
8:30 - 8:45	Welcome Remarks
8:45 - 9:30	Stability in Freeze Dried Proteins: Can physical characterizations predict with useful accuracy? Dr. Michael Pikal, University of Connecticut
9:30 - 10:00	High resolution characterization of proteins in lyophilized solids. Dr. Liz Topp, Purdue University
10:00 - 10:30	Coffee Break/Networking
10:30 - 11:00	Developing Bench-Top Methods for Predicting Protein Stability in Solid State Formulations. Dr. Marc Cicerone, NIST
11:00 - 11:30	Headspace Moisture Analysis in Iyo Cycle Optimization, Process Monitoring and Long-term Stability Studies, <i>Michael Lally, LightHouse Instruments</i>
11:30 - 12:00	Panel Discussion
12:00 - 1:30	Lunch/Poster Session/Networking
1:30 - 2:00	Student Session: Thermostable Lyophilized Ebola Vaccine Formulations, Carly Chisholm, University of Colorado-Boulder and Equipment Capability Limits: Comp. Modeling and Experimental Validation, Vaibhav Kshirsagar, Purdue University
2:00 - 2:30	Innovative Manufacturing Technology Platforms for Freeze-Drying of Biologics and Vaccines. Dr. Akhilesh Bhambhani, Merck
2:30 - 3:00	Freeze-Dryer Characterization - Fundamentals, implementation, and challenges. Anthony Gudinas, Pfizer
3:00 - 3:30	Coffee Break/Networking
3:30 - 4:00	Process Validation for Lyophilized Drug Products: Developing a Program for Continued Process Verification, Dr. Karen Bossert, Lyophilization Technology, Inc.
4:00 - 4:30	Current Regulatory Considerations on Pharmaceutical Lyophilization, Dr Kumar Janoria, FDA/CDER/OPQ/OPF
4:30 - 5:00	Panel Discussion
5:00 - 5:15	Closing Remarks
This Year's Event Hosted by To register or for more information.
